

Penalty Removal Fast Start Guide:

Hi and welcome to your Penalty Removal Fast Start Guide.

First off the fastest start that you can make is by giving us a call at:

Let's get into some basics:

The process for penalty removal is a complex procedure, here are some pre-requisites:

- ✓ **The site will have to be moved to a new domain – This is unavoidable (hence why the likes of eBay cannot take advantage of this technique).**
- ✓ **A brand new domain is ideal.**
- ✓ **On-page: Keyword density (and other on-site issues) will need to be optimized to less than 4% prior to moving the site to its new home.**
- ✓ **Other causes of the penalty will have to be fixed before starting the procedure, or it will get penalized again.**
